" H. Miller	13.55
" C. Rossi	20.85
" J. Pesini	11.47

All apparatus & hose has been tested in the past week and found O. K.  
Hose #1 is need of painting and it has been found hard to bring the breaks  
up to the standard as now laid down by the Registry of Motor Vehicles. On  
the the Pumper and Hose 1 as the y are old style. I would suggest that chem-  
ical tanks on the different trucks be eliminated and booster tanks pumps  
be installed.
